Data description

Abstract

A questionnaire targeting the production units and offering quantitative data to characterize a) the production units, b) the strategies for use of land and livestock and forest resources at production unit level, c) the perception of climatic changes and variability, d) the perception of the adaptation to climatic changes and variability, and e) the perception of future changes in case of permanent climate changes.

Observing strategy

At each site at least 100 production units distributed on at least 3 villages. The production units in each village is selected at random.

Geographic information

Measured parameters

Current situation

Parameter name:	current situation
Unit:	no unit
Date begin (yyyy-mm-jj):	2007-11-03
Date end (yyyy-mm-jj):	2008-07-08

Main changes (if any) over the past 20 years

Parameter name:	main changes (if any) over the past 20 years
Unit:	no unit
Date begin (yyyy-mm-jj):	2007-11-03
Date end (yyyy-mm-jj):	2008-07-08

Main causes of these changes

Parameter name:	main causes of these changes
Unit:	no unit
Date begin (yyyy-mm-jj):	2007-11-03
Date end (yyyy-mm-jj):	2008-07-08

Data use information

Use constraints:	AMMA data policy
Data policy:	AMMA data policy
