

# MULTI-SAT - TAPEER-BRAIN - Daily Accumulated Surface Rainfall - 0.25

## General information

---

Dataset name: MULTI-SAT - TAPEER-BRAIN - Daily Accumulated Surface Rainfall - 0.25  
Created on: 2016-03-14  
Useful in the framework of: OPERATIONAL-DATA > Satellite products

### Contact(s)

---

Remy Roca - LEGOS - Remy.Roca@legos.obs-mip.fr (PI or Lead scientist)

## Instrument

---

Satellite: MULTI-SAT  
Instrument: TAPEER-BRAIN

## Parameter

---

### Daily Accumulated Surface Rainfall

---

Parameter name: Daily Accumulated Surface Rainfall  
Parameter keyword: Atmosphere > Precipitation

## Coverage

---

### Temporal coverage

---

Date begin (yyyy-mm-jj): 2012-06-01  
Date end (yyyy-mm-jj): 2014-09-30

### Geographic coverage

---

### Data resolution

---

Temporal resolution: 0000-00-01 00:00:00  
Latitude resolution: 0.25  
Longitude resolution: 0.1

## Data use information

---

Use constraints:	See AMMA data policy.
Data policy:	AMMA data policy
Original data format(s):	NetCDF
