## Data description

---

### Abstract

---

Time of water frequency at a day in Serou (near Djougou). The results show the water need depending from the time. Parameter, Attribute list: water quantity, water frequency, water transport, gender, distance. Dataset created by IMPETUS subproject A4.

No information about Data Lineage; No information about Data Consistency; No information about Data Completeness; No information about Positional Accuracy; No information about Quantitative Attribute Accuracy

### Observing strategy

---

Analysis of water usage at a day. In the focus are water observations from a well and a pump in a village, called Sérrou (in the near of Djougou)
