Data description

Abstract

Daily rainfall data within the WASCAL region for Ghana and Burkinafaso in the period 2016-06-01 to 2016-07-31. The number of stations are 9.

The data are daily totals accumulated between 06 and 06 UTC.

The data has been timestamped in a such a way that the value for a particular date corresponds to the end of the observation period.

Example: The rainfall amount for June 12 corresponds to the measuring period June 11 0600 UTC to June 12 0600 UTC.

-999 is missing value

Instrument information

Sensor

Instrument type: RAIN GAUGES

Geographic information

Ghana

Location name:	Ghana
Plateform type:	WEATHER STATIONS

Burkina Faso

Location name:	Burkina Faso
Plateform type:	WEATHER STATIONS

Measured parameter

Precipitation Amount

Parameter keyword:	Atmosphere > Precipitation > Precipitation Amount
Unit:	millimeter - mm

Data use information

Use constraints:	The research leading to these results has received funding from the European Union Seventh Framework Programme (FP7/2007-2013) under grant agreement n° 603502.
Data policy:	DACCIWA data policy
Database:	Dacciwa database
Original data format(s):	Excel
